

Study in Wrocław

Dear international students,
Welcome to Wrocław! The first months of your studies are behind you and you've had the chance to get to know your roommates and group mates. You've probably already realised that in order to get along well in a new environment, you need to have knowledge and know where to look for it. We have prepared the Study in Wrocław Academy especially for you - it is a series of four meetings for foreign students like you, who have started their studies in Wrocław this year. To take part in the meetings, register by filling in a [SHORT FORM](#).

You will learn, among other things, how fantastic the city is that you have chosen for your studies, how to move around it efficiently, how to take care of your safety, how to look for a job, what is the NFZ, PESEL, how to submit documents for temporary residence... and many more important things. The first three meetings will be held in Polish. The fourth meeting is dedicated to English-speaking students.

Here are the topics and the schedule of meetings:
